

Menu

CELL CULTURE

BIOWEST

Cell culture media and reagents

PROMOCELL

Primary cells

ATCC

Cancer cells, primary cells, immortalized cells, reporter cell lines

BIOWEST

Fetal bovine serum and other animal sera/plasma

REPROCELL

iPSCs and neurons

GRIFOLS

Human serum

CHEMOMETEC

Fluorescent nucleocounter

3D CULTURES

ATCC

cancer organoids

PROMEGA

Assays suited for studying 3D cell cultures

CELVIVO

Bioreactors for culturing 3D organoids/spheroids

LUCID SCIENTIFIC

Contactless device for real-time oxygen consumption analysis

BIOWEST

Cell culture media and reagents

GRIFOLS

Human serum

REACT4LIFE

study 3D cultures in a human physiology mimicking versatile system

REPROCELL

Alvetex-A unique polystyrene based scaffold for 3D culture

DRUG DISCOVERY

PROMEGA

Unique reporter cell based assays for drug discovery/QC

PROMEGA

DIY reporter assays

CELL HEALTH

LUCID SCIENTIFIC

Contactless device for real-time oxygen consumption analysis

PROMEGA

Sensitive luminescence/fluorescence /absorbance plate readers

PROMEGA

Energy metabolism assays

PROMEGA

Variety of cell health assays

PERSITALTIC PUMPS

QUATROFLOW

Pumps and devices for reliable transfer of delicate biological material

GENE EXPRESSION | CELL SIGNALING ANALYSIS

ANYGENES

qPCR based cell signaling arrays

PROMEGA

Products for studying activation of specific signal transduction pathways

ANTIBODIES | PROTEINS | ELISA KITS

ABCLONAL

variety of antibodies for all applications, recombinant proteins and ELISA kits

PROMEGA

Lumit assays- a more sensitive, time saving, fast, high throughput compatible substitute for ELISA

DNA & RNA ANALYSIS

PROMEGA

DNA extraction kits from various sample types

PROMEGA

RNA extraction kits from various sample types

NZYTECH

DNA extraction kits from various sample types

PROMEGA

Nucleic acid quantification options

PROMEGA

Automatic, high throughput, nucleic acid extraction options

NZYTECH

RNA extraction kits from various sample types

MOLECULAR BIOLOGY

PROMEGA

RT/PCR kits & enzymes

PROMEGA

Plasmid purification kits

NZYTECH

RT/PCR kits & enzymes

PROMEGA

NGS process kits

PROMEGA

Fast & easy cloning options

NZYTECH

plasmid purification kits

Menu part 2

MICROBIOLOGY

ATCC

collection of trusted microbial cultures

PROMEGA

Bacterial cell health assay.

PROMEGA

Bacterial nucleic acid extraction.

ATCC

Microbiome research standards

NZYTECH

DNA & RNA Purification

ANYGENES

qPCR based arrays for microbiota identification

FILTRATION

FILTROX

Industrial or lab scale filtration options for a variety of applications

AMAZON FILTERS

Membrane Filters

FILTROX

Depth filtration products

AMAZON FILTERS

Filter cartridges and capsules

PROTEIN ANALYSIS

PROMEGA

Protein-protein interactions analysis

PROMEGA

Transfection reagents

PROMEGA

Protein degradation analysis

PROMEGA

Unique protein tagging options

PROMEGA

Lumit assays- a more sensitive, time saving, fast, high throughput compatible substitute for ELISA

PROMEGA

Cell-free In vitro transcription & translation systems

PROMEGA

Enzymes and tools for mass spectrometry.

ABCLONAL

variety of antibodies for all applications, recombinant proteins and ELISA kits

NZYTECH

Precast protein gels & Western Blot reagent

GENETIC IDENTITY

PROMEGA

STR analysis kits

SOFTGENETICS

Genetic analysis software

ATCC

Cell line authentication service

PROMEGA

Capillary electrophoresis system

Contact us today and improve your lab
with incredible discounts!
